

Registered Nurse Navigator
Houston, Texas

We are actively recruiting for a Registered Nurse Navigator in our Breast Health Center. The Rose is a non-profit breast center located in Houston, Texas. The Rose serves more than 35,000 patients annually at its two centers and through our mobile mammography program. We provide a wide variety of services including: screening and diagnostic mammograms, ultrasounds, ultrasound guided biopsy, stereotactic biopsy, patient navigation and a mobile mammography program serving the 10 counties surrounding Harris County Texas.

This position will be responsible for the supervision of the patient navigation program, community outreach program and support groups. Coordinates all case management and will serve as a resource for clinical trial information for qualified patients. Ensures that patients diagnosed with breast cancer and their families receive breast health information and treatment-specific education.

The Rose offers a comprehensive benefits package including medical, dental, and vision coverage and a matching 401 (k) plan.

Education: Must be a Registered Nurse in the State of Texas
 Certification as a Breast Patient Navigator preferred

Experience: At least two (2) years' experience in oncology and patient navigation.

Skills: Excellent interpersonal and communication skills required. Effective public speaking and teaching skills required.

We invite you to learn more about this position and The Rose. Please submit your resume and cover letter to hr@therose.org at your earliest convenience.
