

## **Technologist Supervisor Breast Imaging**

Women's Life Imaging Center is the area's largest free-standing diagnostic imaging center. We are seeking a dynamic leader to coordinate and direct daily activities for breast imaging and bone density services at our busy Center. Requires completion of approved Radiologic Technology program, ARRT (R) (M) and 5+ years of progressive management experience. Ideal candidate will demonstrate strong communication, team building and organizational skills.

Our Center is focused on high quality care and excellent patient service. We value employees who support that focus with a positive attitude and commitment to teamwork. This position will be available in early January 2012 and offers competitive compensation and benefits. Send resume and wage requirements to [jobs@strafhealth.com](mailto:jobs@strafhealth.com) or mail to:

Operations Manager
