New from NCBC
CGRA® Certification

Tuesday, April 07

Cancer Genetics & Risk Assessment Certification: CGRA®

Genomic discoveries are increasingly being applied to the clinical care of patient, particularly in the field of cancer genetics and risk assessment.

There is a need for clinicians across the spectrum of practice to acquire knowledge and competency in identifying patients at risk for cancer, including hereditary risk factors as multiple genes can mediate cancer risk across multiple sites.

NCBC's Certification in Cancer Genetics & Risk Assessment has been developed to provide the assurance that the certified individual possesses the knowledge, skills and competency to provide cancer risk assessment services to patients and families.

Preferred candidates are physicians, advanced practice nurses, physician assistants, registered nurses or other skilled practitioners seeking to demonstrate advanced knowledge of cancer genetics, cancer risk assessment with an emphasis on comprehensive breast cancer risk assessment within their respective scope of practice.

Certification Eligibility: The applicant must:

- Be a licensed or certified health care professional with practice focus in breast health care, oncology, cancer genetics or cancer risk assessment.
- (MD, RN, NP, PA)
- Have completed relevant focused educational courses in cancer genetics, risk assessment
- Have 2 years of experience in the field of cancer care, including cancer screening, diagnosis, management, navigation
- Complete an application process

Cancer Genetics & Risk Assessment Certification exam is available Tuesday:

9:00 am	Registration Begins
9:30 am	Tests Begin
12:30 pm	Testing Ends

For any questions
regarding CGRA® certification
please contact
Executive Director NCBC
Kimberly Bolin, BS, ARDMS, ARRT, RT(R)(M)
Kimberly@breastcare.org

Assessment of Need:

Over 250,000 women will be diagnosed with breast cancer annually, accounting for 30% of all new cancer cases in women. This makes it the most common cancer diagnosis in women. This program's intent is to increase the quality of breast care provided to women across the globe through the interdisciplinary education of breast health professionals. Many breast healthcare practices are not standardized and this conference provides a learning and networking environment enabling breast professionals to learn about genetics, risk, the latest treatments, technologies, procedures, become certified and sharpen their skills in detecting and treating breast cancer. Treating breast cancer includes risk assessment.¹ The conference also provides a review of selected topics throughout the field of breast health care.² An analysis of peer-reviewed journal articles, new guidelines and past participant evaluation analysis have identified technical areas of focus which include the evolution of a breast center, breast specific gamma imaging, using breast MRI as a screening tool, improving RT/Radiologist relations, digital positioning, ultrasound imaging, biopsy techniques, lobular neoplasia, reverse axillary mapping, endocrine therapy, treating the breast cancer survivor³, coding and reimbursement procedures. Patient centered focus areas include: providing care to the underserved communities, patient tracking tools, assessing the high risk patient, reconstruction options, starting a sexuality program in a breast center, supporting the breast cancer survivor, and patient satisfaction. In each of these areas, lectures will include controversies, recent developments and recommendations from experts in the breast health care field. This program has been developed specifically for the entire breast center team from administrative staff to breast clinicians. It is the intent of our educational activity to provide breast health care professionals objective, evidence-based clinical content, which they can incorporate into their practice to improve clinical care and outcomes of their patients.

The Essential Oncoplastic Surgery Course with 3 Day Hands-On Lab

and optional Certificate program

- Lecturers are Internationally known breast surgeons showing their insights and experience with oncoplastic techniques.
- Essential techniques that all surgeons can master will be discussed.
- There will be practical labs on all days of the course, allowing in depth hands on experience using the latest Mastotrainers.
- Lecturers will demonstrate their techniques in the lab to be followed by the attendees performing the procedures in a "see one, do one" teaching method.

Course limited to 50 attendees. See pages 10-11

Your Invitation to Attend

Dear Colleagues,

As President, it is my sincere honor and pleasure to welcome you to our 30th Annual Interdisciplinary Breast Center Conference. We are excited about the comprehensive program purposely designed to meet the educational needs of the entire breast team, from breast center administrators to clinical providers of care. This year's program will deliver on state-of-the-art and current educational content from experts in breast surgery, oncology, radiology, pathology, nursing, administration, navigation, psychology and radiology, as well as sharing innovations in breast cancer care, including the New NQMB program.

We have had several successful pre and post conferences that we will be bringing back this year including, the Oncoplastics Breast Surgery course and Innovation in Radiology, Management of the High Risk patient and Developing a High Risk Program, and The Evolution from Clinical Breast Exam to Clinical Breast Assessment. The administration, mammography positioning workshop and navigation post conferences will provide in depth educational sessions to address the needs of our attendees.

I would like to thank the program committee and conference chair, Dr. Khai Tran for their hard work, dedication and commitment to preparing this dynamic program and including amazing speakers and presentations that will give you the tools and knowledge to bring back to your respective practices.

Come to Las Vegas in 2020. Bring your team!

Warm Regards,
Sandhya Pruthi, MD, FNCBC
President, NCBC
Consultant Breast Diagnostic Clinic
Professor of Medicine
Mayo Clinic
Rochester, MN

Greetings and welcome!

NCoBC is approaching a significant milestone in 2020: it is the 30th anniversary of this amazing organization, which continues to evolve as needed in order to stay relevant in the ever-changing landscape of breast care. I am humbled and honored to serve as this year's program and conference chair, and firmly believe that it is our mission to design a conference that meets not only the needs of every expert within the breast care continuum, but also to bring new ideas and the latest thinking in every aspect of breast care, delivered to you by truly talented speakers who are well-regarded in their field. Our very talented planning committee, worked diligently to put our program together and we are indebted to these amazing guest speakers, who care enough to come and share their knowledge and experience with us.

One quick glance of the program will show that we are serious about our commitment to every expert within the multidisciplinary breast care team. More than just providing up-to-the-minute information, it is important to me that we make this information relevant to your everyday work and challenges, and give you information that is applicable to your daily practice, pearls which you can apply as soon as you get back to your clinical work.

In addition to the main conference, there are a variety of pre and post conferences which will bring tremendous value to your patients and organization. This year, we are introducing several new topics, including comprehensive management of lymphedema, innovations in imaging technology, and the nuts and bolts of how to implement a high-risk program within your breast center. We want to show you how to do it, step by step. We continue to highlight the ever-growing importance of genetics in breast care, the evolving and critically important role of navigation, the latest oncoplastic surgical techniques, the importance of clinical breast assessment, and various relevant certification programs that are listed.

We understand that the difficult journey through breast cancer doesn't end with the diagnosis or surgery or radiation, it's just the beginning. This program, as a reflection of this organization and all of its passionate members, speaks to the importance of the entire continuum of care, through survivorship and beyond.

We are all here for our patients and I am honored to be on your team.

With gratitude,

Khai Tran, MD
2020 NCoBC Program/Conference Chair

Core Competencies

In alignment with the CME mission of the University of Tennessee School of Medicine, programs are planned in the context of desirable physician attributes and core competencies (six abilities that are central to the practice of medicine): **1.** Patient Care, **2.** Medical Knowledge, **3.** Practice Based Learning, **4.** Interpersonal and Communication Skills **5.** Professionalism **6.** Systems Based Practice, as designated by the American Board of Medical Specialties. Core competencies addressed in each of the activity objectives below, this shall serve the best interests of the public and assist in maintenance of certification.

Objectives

- Understand the importance of estimating and managing breast cancer risk
- Define the #me too/#times up movement overall
- Describe the Role of Dietary Supplements in Cancer Prevention and Survivorship
- List strategies for outreach to referring physicians
- Discuss when to refer a genetic counselor, pre and post test counseling vs post test only
- Define the benefits and hazards of consumer directed genetic testing
- Distinguish key investments in building a high risk clinic
- Discuss building a clinics proforma
- Understand the importance of high risk management
- Learn the different techniques of implant based reconstruction, pros and cons of prepectoral vs. subpectoral implant based reconstruction
- Recall the definition of triple negative breast cancer
- Recognize that triple negative breast cancer represents a heterogenous subtype of breast cancer when assessed with molecular techniques
- Understand the complexity and nuances of current CAP reporting guidelines for cancer in the context of domestic and global health practice
- Recognize the markers of quality and systems of quality assurance that are necessary for pathology
- Understand the different stages of patients with lymphedema
- Understand the indications and rationale for irradiation of the axillary, supraclavicular and internal mammary nodes following mastectomy or lumpectomy
- Define the role of compression garments in management of lymphedema
- Describe how to identify low risk ductal carcinoma in situ
- Describe the effect of obesity on breast cancer risk, recurrence and mortality
- Understand radiation therapy options in the management of breast cancer
- Recognize long term consequences of estrogen deprivation in survivors of breast cancer and system management

Credit Hours

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of the University of Tennessee College of Medicine and the National Consortium of Breast Centers. The University of Tennessee College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

AMA: The University of Tennessee College of Medicine designates this live activity for a maximum of **33.25 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

PA's, NP's and Nurses: Physician Assistants, Nurse Practitioners and Nurses may use these credit hours toward certification renewal. This credit is acceptable by the American Academy of Physician Assistants (AAPA), American Nurses Credentialing Association (ANCC) and the American Academy of Nurse Practitioners (AANP).

BRN: Credits are arranged through The California Board of Registered Nursing.

ASRT: Continuing Education Category A credits are being arranged through the American Society of Radiological Technologists (ASRT). Each 30 minutes of contact time is awarded .5 CE credit. Each contact hour is equal to 50 – 60 minutes and is awarded 1 CE credit. This program is relevant to the radiologic sciences profession.

AMA PRA Category 1 Credits™

04/03/20	6.5	Management of the High-Risk Patient/Hereditary Predisposition & Implementation of a High-Risk Breast Program
04/03/20	6.5	Imaging of the Future
04/03 – 04/05/20	15.75	Oncoplastic Course with Labs
04/04 – 04/06/20	18	Multidisciplinary Conference
04/06 – 04/07/20	8.75	Mammography Positioning Workshop: Challenging Patients, Challenging Situations
04/07/20	6	Find Your Compass: Navigating the Navigator Roll
04/07/20	6.25	Define the Idea & Deliver the Success: An Interactive Administrative Workshop
04/07/20	6.25	Dr. Harold Freeman Patient Navigation Institute Navigation Review Course
04/07/20	4	The Evolution of Clinical Breast Exam to Clinical Breast Assessment

Management of the High-Risk
Patient/Hereditary Predisposition AND
Implementation of a High-Risk Breast Program

Sandhya Pruthi, MD; Holly Pederson, MD; Teresa Heckel, MBA, FABC, FNCBC; Mary Freivogel, MS, CGC

Developing and implementing a High-Risk Breast Program can be challenging as there is no "one size fits all" approach. A true comprehensive program requires the dedication and investment of various stakeholders with different and often divergent perspectives and values, which can make implementation seem like an uphill battle. Additionally, the lack of robust data about clinical and financial outcomes can make development of the business case difficult. Administrators and clinicians in the community setting are often grappling with what resources and investments are needed, then understanding how to pull them all together to launch a sustainable, comprehensive program. The afternoon sessions will focus on developing, justifying and operationalizing a top-notch High-Risk Breast Program, and the key business considerations for planning, developing and implementing, along the care continuum. It will be applicable to administrators and clinical providers, including nurse navigators, nurse practitioners, physicians, and genetic counselors.

Management of the high-risk patient has become more challenging and entails a multimodal and personalized approach. This high-risk session will include state of the art presentations on the role of enhanced surveillance for early detection of breast cancer, lifestyle modification and risk reducing medications. With the advent of newer multi-gene panel tests, experts will review the importance of addressing patient desires, understanding of results and advisable thresholds for consideration of testing. A panel of breast health specialists will present case studies in the management of high-risk patients.

Friday, April 03

7:00 - 8:00 am	Breakfast Symposia with Myriad
8:00 - 8:30 am	Defining the High-Risk Clinic and Identification of the High-Risk Patient Holly Pederson, MD
8:30 - 9:00 am	Risk Assessment Models- Pros and Cons and Using Models for Personalized Risk Assessment Dawn Mussallem, MD
9:00 - 9:30 am	Should Everyone Have Genetic Testing? Allison Kurian, MD, MSc
9:30 - 9:45 am	Break
9:45 - 10:15 am	What's New in Surveillance Imaging Options for High Risk Patients? Lora Barke, MD
10:15 - 10:45 am	Lifestyle Modification and Pharmacologic Options for Breast Cancer Risk Reduction Sandhya Pruthi, MD
10:45 - 11:15 am	CASES: Panel Discussion: Management of the High-Risk Patient Dawn Mussallem, MD Moderating with Holly Pederson, MD; Alison. Kurian, MD, MSc; Lora Barke, MD; Sandhya Pruthi, MD
11:15 - 12:30 pm	Lunch on Your Own TBD
12:30 - 1:00 pm	Designing the High-Risk Breast Program Teresa Heckel, MBA, FABC, FNCBC & Mary Freivogel, MS, CGC
1:00 - 1:30 pm	Critical Role of the Breast Imaging Navigator Dominique Smith, RT (M), BIN
1:30 - 2:00 pm	Business Considerations in Genetic Counseling Mary Freivogel, MS, CGC
2:00 - 2:30 pm	Communications & Collaborations: Bridging Relationships with Referring Physicians Stephanie Graff, MD
2:30 - 2:45 pm	Break
2:45 - 3:15 pm	Role of the High-Risk Advanced Practice Nurse Provider in High Risk Medical Management Dagny Oliver, NP
3:15 - 3:45 pm	Building the Business Case for a High-Risk Breast Program Teresa Heckel, MBA, FABC, FNCBC
3:45 - 4:30pm	Highlighting High Risk Breast Program Success Factors in the Community Setting Mary Freivogel, MS, CGC Moderating with Andrea Kaster, MD; Dominique Smith, RT (M), BIN; Dagny Oliver, NP; Lora Barke, MD
	Pre-Conference Ends

IMAGING of the Future

Sadia Choudhery, MD & Robert C. Ward, MD

This exciting pre-conference will cover revolutionizing breast imaging technologies and practices of the future. Attendees will learn from renowned faculty about the pros and cons of these technologies and practical methods for adoption and implementation. The goal of this conference is to highlight the new breast imaging technologies on the horizon and to underscore the importance of these technologies in advancing breast care in daily clinical practice.

Friday, April 03

7:00 - 8:00 am	Breakfast Symposia
8:00 - 8:30 am	Implementing Abbreviated MRI in Clinical Practice Emily Conant, MD
8:30 - 9:00 am	Contrast-Enhanced Breast CT and PET/CT Elizabeth Dibble, MD
9:00 - 9:30 am	Converting to Tomosynthesis Screening: Logistics and Beyond Emily Conant, MD
9:30 - 9:45 am	Break
9:45 - 10:15 am	Gadolinium Deposition: Fact vs Fiction Christiane Kuhl, MD
10:15 - 10:45 am	Updates on Contrast-Enhanced Mammography Jordana Phillips, MD
10:45 - 11:15 am	Questions and Answers with the Morning Speakers Sadia Choudhery, MD Moderating with Emily Conant, MD; Elizabeth Dibble, MD; Christiane Kuhl, MD; Jordana Phillips, MD
11:15 - 12:30 pm	Lunch on Your Own TBD
12:30 - 1:00 pm	Using Ultrasound Features as Predictive & Prognostic Biomarkers A.Thomas Stavros, MD, FACR
1:00 - 1:30 pm	Interpretation of Reconstructed 2D Mammography Stamatia Destounis, MD, FACR, FSBI, FAIUM
1:30 - 2:00 pm	Non-Mass Ultrasound Lexicon A.Thomas Stavros, MD, FACR
2:00 - 2:30 pm	Pearls and Pitfalls for Tomosynthesis-Guided Procedures Stamatia Destounis, MD, FACR, FSBI, FAIUM
2:30 - 2:45 pm	Break
2:45 - 3:15 pm	Cryoablation for Breast Tumors: Where Do We Stand? Robert C. Ward, MD
3:15 - 3:45 pm	Failure to Plan, is Planning to Fail: Gearing Up for Future Technology Stephen Rose, MD
3:45 - 4:15pm	Q&A with the Afternoon Speakers A.Thomas Stavros, MD, FACS; Stamatia Destounis, MD, FACR, FSBI, FAIUM; Robert C. Ward, MD; Stephen Rose, MD

The Essential Oncoplastic Surgery Course
with 3 Day Hands-On Lab

Cary S. Kaufman, MD, FACS

Oncoplastic Surgery is safe, has fewer re-excisions, has improved cosmetic results and has been embraced by many breast surgery organizations here and abroad. Join us at our newly expanded three-day “Essential Oncoplastic Surgery Course” using environmentally conscious customized Mastotrainer models to perform a variety of oncoplastic surgical procedures, from basic to complex. These models provide predictable anatomic issues that can be corrected using the variety of oncoplastic techniques. One-on-one instruction will occur in a see-one do-one process.

Surgeons of all breast surgical skills can learn new techniques. Those who already perform oncoplastic surgery may consider applying for the “Certificate of Performance in Oncoplastic Surgery™.” This process will include educational lectures, documented performance of multiple techniques, and an oncoplastic surgery written test. An award report will be given that documents each procedure and all educational content and testing to validate one’s own performance.

Friday, April 03

7:50 - 8:00 am	Course Introduction, Housekeeping, Orientation Cary S. Kaufman, MD, FACS
8:00 - 8:30 am	History of Oncoplastic Surgery Gail Lebovic, MA, MD, FACS
8:30 - 9:00 am	Genetic Testing: What the Breast Surgeon Needs to Know Mary Freivogel, MS, CGC
9:00 - 9:30 am	Crescent Mastopexy / Benelli-Round Block Mastopexy: Methods, Candidates, Guidelines Sadia Khan, DO, FACS
9:30 - 9:45 am	Break
9:45 - 11:15 am	ONCOPLASTIC LAB #1 Using RIGHT Breast – Crescent and Round Block Techniques – All Faculty TASK #1: Perform Crescent Mastopexy 1.0 cm lift with final suturing in place TASK #2: Perform Round Block Mastopexy 1.0 cm above crescent or 2.0 cm total lift with final suturing in place Certificate applicants will have pictures taken of preoperative appearance, midway dissection and final result. (This requires the additional Certificate of Performance in Oncoplastic Surgery™ fee.)
11:15 - 12:30 pm	Lunch on Your Own TBD
12:30 - 1:00 pm	The Gift of Oncoplastic Surgery Barbara Rabinowitz, PhD, MSW, FNCBC
1:00 - 1:30 pm	Reconstructive Lumpectomy and Intraoperative Imaging Cary S. Kaufman, MD, FACS
1:30 - 2:00 pm	Nipple Sparing Mastectomy Techniques / Preferences / Options Ronda Henry-Tillman, MD, FACS and Faculty Panel
2:00 - 2:30 pm	How to Approach the Inferior Breast: Inframammary Fold Approach, Anchor/Inverted T Approach: Methods, Candidates, Guidelines Jennifer Gass, MD, FACS
2:30 - 2:45 pm	Break
2:45 - 4:15 pm	ONCOPLASTIC LAB #2 Using LEFT Breast – Inferior Mammary Fold and Anchor Techniques – All Faculty TASK #3: Perform Inferior Mammary Fold Approach with final suturing in place TASK #4: Perform Anchor (Inverted T not involving the nipple) Approach with final suturing in place TASK #5: Discuss (do not perform) Circumvertical approach to lower pole. Certificate applicants will have pictures taken of preoperative appearance, midway dissection and final result. (This requires the additional Certificate of Performance in Oncoplastic Surgery™ fee.)
4:15 - 5:00pm	Extreme Oncoplasty: Candidates, Methods, Results Sadia Khan, DO, FACS
	Oncoplastic Ends for the Day

Saturday, April 04

7:00 - 8:00 am	Breakfast Symposia with Pfizer
8:00 - 8:30 am	Review and Summary of Yesterday's Labs / Decisions: Working with Plastic Surgeons vs. On Your Own Beth Lesnikoski, MD
8:30 - 9:00 am	Anatomic Based Oncoplastic Surgery: Blood Supply, Pedicle Options, Ptosis & Reduction Options Gustavo Zucca-Matthes, MD, PhD
9:00 - 9:45 am	Wise Pattern Markings: The Gateway to Successful Reductions Gail Lebovic, MA, MD, FACS
9:45 - 10:15 am	Break with Vendors
10:15 - 12:00 pm	ONCOPLASTIC LAB #3 Using RIGHT Breast – Marking the Wise Pattern and Inferior Pedicle Reduction Mammoplasty – All Faculty TASK #6: Perform Wise Pattern Markings on RIGHT breast TASK #7: Perform Inferior Pedicle Reduction Mammoplasty with removal of nodule upper outer quadrant TASK #8: Discuss (do not perform) other approaches: Circumvertical, Lollipop, J-plasty, L-plasty, other approaches Certificate applicants will have pictures taken of preoperative appearance, midway dissection and final result. (This requires the additional Certificate of Performance in Oncoplastic Surgery™ fee)
12:00 - 1:30 pm	Lunch with Vendors
1:30 - 2:00 pm	Challenges with Oncoplastic Surgery Privileges: Certification of Education and Performance Chris Glaser, MD, FACS & Cary Kaufman, MD, FACS
2:00 - 2:30 pm	Pearls from our Panel: Making Oncoplastic Surgery Easier - All Faculty
2:30 - 3:00 pm	Superior Pedicle Reduction Mammoplasty Technique: Approach to the lower pole tumors Gustavo Zucca-Matthes, MD, PhD
3:00 - 3:30 pm	Break with Vendors
3:30 - 5:00 pm	ONCOPLASTIC LAB #4 Using LEFT Breast – Superior Pedicle Reduction Mammoplasty Technique – All Faculty TASK #9: Perform Wise Pattern Markings on Left Breast TASK #10: Perform Superior Pedicle Reduction Technique on Left Breast and remove tumor from Lower Pole (if not already removed). Certificate applicants will have pictures taken of preoperative appearance, midway dissection and final result. (This requires the additional Certificate of Performance in Oncoplastic Surgery™ fee)
	Oncoplastic Ends for the Day

Sunday, April 05

7:00 - 8:00 am	Breakfast Symposia TBD
7:30 - 8:00 am	Written Examination Only for Certificate Applicants All Faculty (Regular attendees do not attend - <i>(This requires the additional Certificate of Performance in Oncoplastic Surgery™ fee)</i>)
8:00 - 8:15 am	Summary of Yesterday's Events Cary S. Kaufman, MD, FACS
8:15 - 8:45 am	Current (and Future) Approaches to Lymph Nodes Richard J. Bleicher, MD
8:45 - 9:15 am	Complications of Oncoplastic Surgery Gustavo Zucca-Matthes, MD, PhD and Faculty
9:15 - 9:45 am	Oncoplastic Surgery Billing: Getting Paid for What You Do Ronda Henry-Tillman, MD, FACS
9:45 - 10:15 am	Break with Vendors
10:15 - 10:45 am	Providing Targeted Radiation Therapy in the Era of Oncoplastic Tissue Rearrangement Dr. Julia White, MD, FACS, FASTRO
10:45 - 11:20 am	Oncoplastic Lab #5: Localization Methods, A Spectrum of Approaches All Faculty TASK #11: Localizing and Surgical Lab (Localization Hands on Lab Surgical Approach Hands on Lab)
11:20 - 12:10 pm	Summary, Q&A Oncoplastic Course Moves To General Meeting For Lunch And Lectures At 12:10
12:10 - 5:40 pm	Oncoplastic Course Moves To General Meeting For Lunch And Lectures including Contralateral Mastectomy, Surgical Management of Multicentric Disease, Tumor Board, Timeliness of Care, Quality and Oncoplastic Surgery, Implant Breast Reconstruction, DCIS and other topics.
12:10 - 1:30 pm	Lunch with Vendors

Saturday , April 04 3 Day General Conference Begins!

7:00 - 8:00 am	Breakfast Symposia with Pfizer			
8:00 - 8:15 am	Membership Update & Opening Comments and Logistics Sandhya Pruthi, MD; Khai Tran, MD & Kimberly Bolin, Executive Director, NCBC			
8:15 - 9:00 am	Key note Speaker Life is Short, Don't Wait to Dance Valerie Kondos			
9:00 - 9:45 am	Management of the Axilla – Past, Present and Future Beth Overmoyer, MD with Jennifer Gass, MD, FACS and Jordana Phillips, MD			
9:45 - 10:15 am	Break with Vendors			
10:15 - 10:30 am	Impact Award			
10:30 - 11:00 am	Universal Genetic Testing Challenges and Opportunities Allison W. Kurian, MD, MSc			
11:00 - 11:30 am	Breast Density: Current Perspective and Future Challenges Liane Philpotts, MD, FSBI, FACR			
11:30 - 12:00 pm	30 Years of NCoBC: Past, Present and Future Barbara Rabinowitz, PhD, MSW, RN, FNCBC			
12:00 - 1:30 pm	Lunch with Vendors			
Break Outs	Imaging (Radiology/RT)	Administration	Multidisciplinary Clinical/Path/RN/Genetics	Navigator
1:30 - 2:00 pm	Advances in Wireless Localization Techniques <i>Jay Parikh, MD, FRCP(c), FACR, FACPE</i>	Finding Joy in Our Work: Helping Ourselves & Our Staff Avoid Compassion Fatigue <i>Jacquelyn B. Ostrom, CFRE, MA</i>	High Risk/Genetics – Case Discussion Panel <i>Holly Pederson, MD Moderating with Alison W. Kurian, MD, MSc; Sandhya Pruthi, MD; Richard Bleicher, MD and Jennifer Scalia-Wilbur, MS</i>	Young Women, Egg Selection, Egg vs Embryo & Other Topics in Fertility Preservation <i>Shannel Adams, MD</i>
2:05 - 2:35 pm	Calming Patients' Fears: Communications Skills for Breast Imagers <i>Stamatia Destounis, MD, FACR, FSBI, FAIUM</i>	From Senior Leadership to Breast Center Staff: Securing Vertical Engagement <i>Mike Koroscik, MHA, MBA</i>		Implicit Bias- Who Me? Reflections on Our Own Biases and Impact on Outcomes <i>Nathalie Johnson, MD</i>
2:40 - 3:10 pm	Changing Outcomes in Your Breast Center: Peer Review and Recall Rates <i>Stephen Rose, MD</i>	Value in Breast Cancer Care <i>Rachel Greenup, MD</i>	Strive to Thrive: Protecting Bone Health During & After Breast Cancer <i>Tara Sanft, MD</i>	Role Delineation- Best Practices to Provide Value to Patient and Healthcare Team - <i>Kristina Rua MSN, RN, OCN, ONN-CG</i>
3:10 - 3:45 pm	Break with Vendors			
3:45 - 4:15 pm	Fertility Options for the Woman with Breast Cancer Sandra Ann Carson, MD, FACOG			
4:15 - 5:15 pm	Lymphedema MINI SYMPOSIUM Risk factors/Diagnosis and Prevention Atila Soran MD, MPH, FACS, FNCBC Stages and Surgery Oscar Manrique, MD Physiology/ Updated Non-Surgical Treatment Options Stanley Rockson, MD CDT/ Exercise Lisa G. Mager, MPT, CLT-LANA, WCS, UPMC Centers for Rehab Services LE Board Panel Case Discussion Atila Soran, MD, MPH, FNCBC, FACS; Oscar Manrique MD; Stanley Rockson MD Lisa G. Mager MPT, CLT-LANA, WCS, UPMC Centers for Rehab Services			
5:15 pm	Conference Ends for the Day			

Sunday, April 05

7:00 - 8:00 am	Breakfast Symposia TBD			
8:00 - 8:30 am	Artificial Intelligence in Breast Imaging: From Theory to Practice Sadia Choudhery, MD			
8:30 - 9:00 am	Update on Abbreviated Breast MRI: Results of ECOG-ACRIN Trial Christiane Kuhl, MD			
9:00 - 9:30 am	From Every Clinician to Administrators: What's Sex Got to Do with It Anne Katz, RN, PhD, FAAN			
9:30 - 9:50 am	Vendor Showcase			
9:50 - 10:30 am	Break with Vendors			
Break Outs	Imaging (Radiology/RT)	Survivorship	Multidisciplinary Clinical/Path/RN/Genetics	Navigator
10:30 - 11:00 am	Imaging Features of Breast Cancer Subtypes <i>Cherie M. Kuzmiak, DO, FACR, FSBI</i>	Taking a Bite Out of Supplements: An Objective Look on the Use of Dietary Supplements in Cancer <i>Ting Bao, MD</i>	Changes in the Treatment of Hormone Receptor Positive Metastatic Breast Cancer: The Challenges of Sequencing Therapy <i>Beth Overmoyer, MD</i>	The Impact of Implementing a Clinical Pathway and Measuring Adherence <i>Stephanie Graff, MD</i>

4:15 - 4:45 pm	Obesity and Breast Cancer <i>Jennifer Ligibel, MD</i>		
4:45 pm	Conference Ends		

NCBC invites you and your breast center team to submit an abstract/poster.

YOUR INVITATION

You and your breast center team are invited to submit an abstract to the NCoBC's 30th Annual Interdisciplinary Breast Center Conference, being held at the All New Caesars Forum Venue, Las Vegas, NV. April 03-08, 2020. The abstract/poster program provides a great opportunity to share your research and experience with other breast health care professionals. The goals of this session are to facilitate communication between breast care centers, to disseminate knowledge that may be useful to our members and their patients, and to give recognition to outstanding submissions.

TO PARTICIPATE

To participate, email your abstract and the **Abstract Application*** to the NCBC office at NCBCabstracts@breastcare.org by the **due date, January 10, 2020; late submissions will not be accepted.** Faxed abstracts will not be accepted. Submission(s) will be peer reviewed and the abstract author(s) notified of acceptance for poster display at the 2020 Conference by the end of February 7, 2020. The NCoBC will host a special Poster Reception at the end of the conference day on Sunday, April 05, 2020.

NCBC will invite the authors of one abstract submitted in each of the three major categories, as well as as well as one submitted by trainee (fellows, residents, students and other trainees), one of which will be designated the **Fellow/Resident/Student Award-winning abstract**, to briefly present their abstracts during the Oral Abstract Presentations at the Poster Reception. Category oral abstract presenters will be awarded a monetary gift of \$100. The Fellow/Resident/Student Award* recipient will receive a monetary gift of \$200 and complimentary registration to the conference.

*The Abstract Application and Guidelines for the Fellow/Resident/Student Award can be found at <https://www2.breastcare.org/abstracts/>

Special Recognition 2019 Poster/Abstract Award Winners

Category I - From Paper to Tablet: Improving Effectiveness in Identifying High Risk Women in the Mammography Setting
J.Sieling, H.Lu, S.McLaren, K.Curiel

Category II - Longitudinal Study of Alterations in Cognitive Function and Brain Metabolites among Women Receiving Chemotherapy for Primary Breast Cancer
R.Hurley, E.Giiman, J.Cerhan, K.Kantarci, P.Novotny, K.Ruddy, S.Kohli, S.Pruthi

Category III - A Clinical Value of Mammography in Restaging Breast Cancer Without Associated Calcifications in Patients Undergoing Neoadjuvant Chemotherapy
B.Wang, K.Chang, C.Cai, T.Moseley, H.He

Fellow Winner - Investigating the Link Between Breast Cancer and Lynch Syndrome
M.Sheeham, L.Bolden, C.Moreno, C.Yanda, E.Downs-Kelly, M.Kalady, H.Penderson

Find Your Compass: Navigating the Navigator Role

Brook Blackmore; Nathalie Johnson, MD & Nicole Centers, BSN, RN, OCN, CBCN, CN-BI

Join us for an interesting voyage as we give you some waypoints for mapping your navigation journey. As you consider navigation or if you are already captaining the role, this post-conference lays the course to find treasures that will be useful for you and your patients. We will have sessions to help you gain insight to get your patients through the rough seas of diagnosis and treatment and into the calmer seas of survivorship. Come join us to Find Your Compass as you are Navigating the Navigator Role

Tuesday, April 07

8:00 - 8:15 am	Welcome – Housekeeping Nicole Centers, BSN, RN, OCN, CBCN, CN-BI
8:15 - 8:45 am	Patient Experience- Making a Hard Time Better Anu Saigal, MD
8:45 - 9:30 am	Advocating for Patients: Approaches to Navigate Difficulties in Care Lori Wilson, MD, FACS
9:30 - 9:45 am	Break
9:45 - 10:15 am	When Fertility Plans Fail, What is Plan B (adoption, surrogate) Shannel Adams, MD
10:15 - 10:45 am	Support For Those Living with a Genetic Mutation and Cancer or Supporting Families with Mutations Nathalie Johnson, MD
10:45 - 11:15 am	Navigating Resources for Addressing Children/Parental Issues Along with the Diagnosis or Medication Reimbursement Kathy Gomatos, MSW, LCSW, OSW-C, CCTP
11:15 - 12:30 pm	Lunch on Your Own TBD
12:30 - 1:15 pm	Oncology Nursing Basics for New Breast Care Nurses (Include Imaging, Genetics, Pathology, Diagnosis, Treatment Basics, etc...) Nicole Centers, BSN, RN, OCN, CBCN, CN-BI
1:15 - 1:45 pm	Web of Influence for the Navigator - Maximizing Relationships to Build Program Awareness and Credibility Kristina Rua, MSN, RN, BSN, OCN, ONN-CG
1:45 - 2:30 pm	Payment Resources for Imaging Kelly Scott, RT(R)(M), CN-BI
2:30 - 2:45 pm	Break
2:45 - 3:30 pm	Compassion Fatigue: The Cost of Connecting? Barbara Rabinowitz PhD, MSW, FNCBC
3:30 - 4:00 pm	Q&A Session (All Faculty)
4:00 - 4:15pm	Wrap-Up – Housekeeping
	Post- Conference Ends

Define the Idea and Deliver the Success: An Interactive Administrative Workshop

Deborah Dix, RN, MS & Jane Berz, MSN, RN, FNCBC

Administrators are faced everyday with the challenge of delivering the clinical and business demands of today, while constantly planning for the needs of the future. This post conference focuses on basic tools needed to run your day to day operations, with a roadmap to developing your program into the future. The breakout sessions are designed to allow you to select the two areas that will benefit your program the most and create an individualized plan. This interactive workshop should prepare you to deliver success when you return home!

Tuesday, April 07

8:00 - 8:45 am	Integrative Oncology: What is It, How Do You Build It & How Does It Benefit Your Patients? Stacy D'Andre, MD
8:45 - 9:30 am	Bundled Payments: Coming to Your Breast Center, Are You Ready? Gary Hubschman, CFO
9:30 - 9:45 am	Break
9:45 - 10:15 am	Utilizing Operational Objectives with Patient Experience Goals Mike Koroscik, MHA, MBA
10:15 - 10:45 am	Data: How to Ask the Right Questions to Get the Right Results Kioka Walcott, CTR
10:45 - 11:15 am	Advancing Staff Development Towards Clinical Excellence Julie Shisler, BS, LPN, CN-CM
11:15 - 12:30 pm	Lunch on Your Own TBD
12:30 - 2:30 pm	Leave with a Plan: An Interactive Workshop to Develop your Program Need Select Two Session A: Developing a Proforma Session B: Enhancing the Patient Experience Session C: Managing Your Data for Outcomes Session D: Staff Development: Toolkit to Excellence Faculty for these sessions will be Gary Hubschman, CFO; Deborah Dix, RN, MS; Jane Berz, MSN, RN, FNCBC; Julie Shisler, BS, LPN, CN-CM; Barbara Rabinowitz, PhD, MSW, RN, FNCBC; Dava Gerard, MD; Mike Koroscik, MHA, MBA and Lisa Allison, RN, MS
2:30 - 2:45 pm	Break
2:45 - 3:45 pm	Alphabet Soup: Navigating the NAPBC, ACOS-CoC & NQMCB Standards Jennifer Gass, MD, FACS
3:45 - 4:15pm	Wrap-Up: Next Steps to Success Deborah Dix, RN, MS and Jane Berz, MSN, RN, FNCBC
	Post- Conference Ends

Mammography Positioning Workshop: Challenging Patients, Challenging Situations

Louise Miller, RT(R)(M), FNCBC

This workshop will help you learn how to achieve optimal images on screening and diagnostics exams with the majority of our patients. It will help you learn to solve the most common positioning problems. No IMF? Short PNL on the CC? Excessive skin and fat folds? We can help! Emphasis will also be on achieving the best images possible on challenging patients and in difficult situations. Patients in wheelchairs, extremely large or small breasts, implants, the elderly and infirm, difficult body habitus? We can't help you get perfect images on these patients, but we CAN help you by sharing the tips and tricks that will make a difference.

Monday Evening, April 06

6:00 - 7:00 pm	Upright Stereotactic Procedures: Tips and Tricks Dawn Derenburger, RT(R)(M), ARRT
7:00 - 8:00 pm	Whole Breast Ultrasound: Theory and Practice Belinda Zaparinuk, RT(R)(M)(BS), ARRT

Tuesday, April 07

8:00 - 8:50 am	New Standards for FFDM and DBT: The Importance of Standardization Louise Miller, RT(R)(M), FNCBC, FSBI
8:50 - 9:40 am	Problem Solving the CC and MLO Sarah Jacobs, BS, RT(R)(M)(CT)
9:40 - 10:00 am	Break
10:00 - 11:15 am	Positioning Solutions for Challenging Patients Dawn Derenburger, RT(R)(M), ARRT
11:15 - 12:05 pm	Case Review: The Proper Use of Additional Views Robyn Hadley, RT, (R)(M)
12:05 - 1:00 pm	Lunch On Your Own TBD
1:00 - 3:00 pm	Hands on Positioning Workshop Sarah Jacobs, BS, RT(R)(M)(CT); Dawn Derenburger, RT(R)(M), ARRT; Robyn Hadley, RT(R)(M); Lundy Estime, RT(R)(M)
3:00 - 4:00 pm	Challenging Situations: Creating the Positive Mammography Experience Louise Miller, RT(R)(M), FNCBC

Dr. Harold Freeman Patient Navigation Institute Navigation Review Course

Harold P. Freeman MD and Courtney Bowen MS

Healthcare professionals and advocates including but not limited to nurses, radiology technologists, other licensed providers and non-licensed navigators will be presented with the most current information on navigation of breast patients across all phases of the healthcare continuum including outreach, screening, diagnosis, treatment and survivorship. The curriculum will include various modules of navigation which will familiarize participants with the skill sets required to navigate breast patients through various phases of the health care continuum.

Tuesday, April 07

8:00 - 9:30 am	Overview and Historical Prospective of Patient Navigation Harold P. Freeman, MD
9:30 - 9:45 am	Break
9:45 - 11:15 am	Clinical Navigation (Screening, Diagnosis, and Treatment) Nurses prospective
11:15 - 12:30 pm	Lunch On Your Own TBD
12:30 - 2:00 pm	Lay Navigation (Advocate)/(Outreach, Screening and Communication)-Developing a Navigation Program Courtney Bowen MS
2:00 - 2:30 pm	Test Review: Case Studies Harold P. Freeman, MD and Courtney Bowen, MS
2:30 - 2:45 pm	Break
2:45 - 3:15 pm	Test Review: Case Studies Continues Harold P. Freeman, MD and Courtney Bowen, MS
3:15 - 4:00 pm	Learning Objective Review Harold P. Freeman, MD
4:00 pm	Q&A

NCoBC 2020 Scholarship Available

The Natosha Lynne Morton Scholarship funded by MagView® is to provide recognition to those Breast Health professionals who best exhibit character, compassion, and caring in conjunction with providing the best possible care to patients by paying their conference registration fee to attend the 30th Annual Interdisciplinary Breast Center Conference April 03 - 08, 2020 in Las Vegas, NV. Applicants must complete the questionnaire application below in the link to the best of their ability. Content will be scored by the NCBC staff based on the evidence of character, compassion, and quality of care.

Prerequisites for NCoBC 2020 Scholarship Consideration

Applicants Must:

1. Be a first-time NCoBC Annual Interdisciplinary Breast Center Conference attendee.
2. Be a current NCBC Individual or Facility Member.
3. Be a practicing breast health professional or advocate.
4. Fill out the application online found at:
<https://www2.breastcare.org/welcome-to-the-annual-national-interdisciplinary-breast-center-conference/>
5. Be able to pay their own transportation and accommodation fees.
6. Sign a consent form allowing NCBC and Magview® to publicize name/photos for future marketing campaigns.

Other Notes:

- The Natosha Lynne Morton Scholarship does not cover NCBC membership.
- The scholarship only covers the cost of the general conference. Pre & Post conference workshops certificates or certification exams are at the winner's expense.
- Deadline for application is December 17, 2019.
- **Winner will be announced on or before January 10, 2020.**

The Evolution of Clinical Breast Exam to Clinical Breast Assessment: Challenges, Opportunities and Improving the Quality of Breast Care

Sandhya Pruthi, MD; Belinda Zaparinuk, RT(M), BS, CBEC, FNCBC & Benjamin Anderson, MD, FACS

Clinical breast assessment entails a comprehensive and multipronged approach, based on symptoms and clinical criteria to evaluate breast abnormalities and diagnose breast cancer. The multidisciplinary team of experts participating in this post conference will present updates in screening and diagnostic mammogram guidelines, the role of breast health awareness and how diagnostic imaging (mammogram, ultrasound and breast MRI) is applied when focal findings (masses, thickenings, focal pain, nipple discharge, breast pain etc.) are present. Attendees will have the opportunity to participate in a workshop and practice the detection of breast abnormalities on breast models.

Tuesday, April 07

8:00 - 8:30 am	Guidelines For Screening And Diagnosis Of Breast Cancer Andrea Kaster, MD
8:30 - 9:00 am	The Ongoing Role Of "CBE" Or "Clinical Breast Assessment" In Women's Health Care Benjamin Anderson, MD, FACS
9:00 - 9:30 am	Taking A Breast History And Breast Cancer Risk Factors Andrea Kaster, MD
9:30 - 9:45 am	Break
9:45 - 10:15 am	Clinical Breast Exam Technique- Screening Versus Diagnosis Belinda Zaparinuk, RT(M), BS, CBEC, FNCBC
10:15 - 10:45 am	Clinical Breast Assessment And Incorporating Breast Pathology, Breast Imaging and New Technologies Belinda Zaparinuk, RT(M), BS, CBEC, FNCBC
10:45 - 11:15 am	Breast Self-Exam And Evolution To Breast Health Awareness Sandhya Pruthi, MD
11:15 - 12:30 pm	Lunch On Your Own TBD
12:30 - 1:30 pm	Case Discussion- Clinical Cases Belinda Zaparinuk, RT(M), BS, CBEC, FNCBC Moderating with Andrea Kaster, MD; Sandhya Pruthi, MD; Benjamin Anderson, MD, FACS and Khai Tran, MD
1:30 - 2:00 pm	Workshop – Part #1 CBE- Breast Models- From Normal To Abnormal
2:00 - 2:30 pm	Workshop- Part #2 CBE – Breast Models- Assessment
2:30 - 2:45 pm	Break
2:45 - 3:15 pm	Certificate of Attendance test
3:15 - 4:45pm	Discussion and review of test questions Benjamin Anderson, MD, FACS; Sandhya Pruthi, MD; Belinda Zaparinuk, RT(M), BS, CBEC, FNCBC; Andrea Kaster, MD
	Post- Conference Ends

Navigator testing is on Tuesday and Wednesday until 12:00pm • Cancer Risk & Genetic Certification test is on Tuesday until 12:00pm

NCBC2020
Interdisciplinary Breast Center Conference
April 03-08 • All New Caesars Forum Venue • Las Vegas, NV

Tuesday or Wednesday April 07 - 08

Breast Patient Navigator Certification

The Breast Patient Navigator Certification developed to set standards of achievement for the professional's role, enhance patient safety, improve the quality of care and delivery of services, and recognize professionals who advance beyond basic knowledge in a field of specialty. The Breast Patient Navigator Certification validates the medical professional's knowledge and performance standards through testing. Certification reflects an individual's achievement beyond licensure requirements and a basic level of knowledge. It exhibits dedication to validating a specific set of skills to provide enhanced care and services for patients and clients through advanced competency. Criteria for the application to test are listed below. The NCBC Breast Patient Navigation Certification Program proudly offers six types of Breast Patient Navigator Certifications: The Certified Navigator – Breast in Imaging, Management, Advocate, Clinical, Provider, or Nurse.

CERTIFIED NAVIGATORS – BREAST (+ individual designation based on licensure)

CN-BI = Diagnostic Imaging/Treatment Techs (All technologists from diagnostics to treatments)

CN-BM = Management/Social Worker (All social workers and managers of navigators)

CN-BA = Advocate (All volunteers/lay navigators)

CN-BC = Clinical (All certified medical assistants, technologists, licensed practical/vocational nurses)

CN-BP = Provider (All breast care diagnosticians, nurse practitioners, physicians, physician assts, breast care PhDs)

CN-BN = RN (All registered nurses from breast care, diagnostic imaging, treatment, survivorship, genetics)

Certification Eligibility Requirements: The applicant must:

- Be a licensed medical professional and hold a valid medical license as a physician, nurse, physician assistant, social worker, radiologic technologist, radiology practitioner assistant, social worker, or advanced practice nurse OR
- Be master level prepared in a health related field; OR
- Be a lay or volunteer navigator and have taken a patient navigation course; AND
- Navigate breast patients for at least 25% of the applicants job responsibility OR
- Have supervision of breast patient navigators; and
- Provide proof of valid license or certification (not required for those taking the Advocate examination); and
- Pay the certification fee of \$295 registration

Certification Eligibility Recommendation but not a Requirement:

- The applicant applying for certification should have at least two years' experience of navigating breast patients. This recommendation is based upon the review of the experience levels of those sitting for the exam and their passing or not passing the examination.

As soon as a person successfully enrolls for the program, an informational hand book is emailed within 7 working days. The hand book does not contain all the material the applicant should review to prepare for the examinations. To prepare for the examinations the applicant should refresh him/herself on information received during their medical professional training. The hand book contains a list of resources from which questions/answers were validated.

A passing score of 81% or better is required to become certified. If an individual does not pass the examination, he/she may sit for the examination again during the next 12 months with no additional fee.

Navigator testing is available Tuesday or Wednesday at these times:

9:00 am	Registration Begins
9:30 am	Tests Begin
12:30 pm	Testing Ends

Meals: The registration fee includes complimentary breakfast symposia, lunches, breaks and receptions, Saturday through Monday. Each registrant will be provided a package of meal tickets with their registration materials. If a meal ticket is lost a replacement may be purchased at \$75 per meal function. Exhibitors should reference their exhibitor package for ticket details. Family or friends that would like to attend breakfast or lunch may do so at the above rate. We work very diligently to provide each meal to have a variety of choices to meet all special needs in food. If you require specific meal needs please refer to Harrah's or LinQ restaurants for your additional options.

Breakfast Symposia: Enjoy breakfast each morning (Saturday - Monday) while learning about new and upcoming products from outstanding companies. See the Symposia schedule below

Our Extraordinary Exhibit Extraganzia: Provides you with a special Vendor Showcase on Saturday at 5:15 – 5:30 pm. On Sunday during the afternoon break we will serve light snacks while you enjoy additional time with the exhibitors.

Poster Reception: This event is designed to allow guests to view all posters on display and interact with the authors and presenters. The four poster winners will present their poster orally during this Poster Reception on Sunday evening. We hope conference guests use this time to learn about ground-breaking new programs, treatments and techniques being implements by breast health facilities worldwide while enjoying the special poster reception with appetizers for all attendees.

Exhibit Hall: An array of specialized technology, equipment, products, and services will be on display for breast centers, group practices, and practitioners of breast health care. Exhibits will be open during non-lecture times (breaks, meals and receptions). NCBC members can visit the NCBC website www.breastcare.org to view a list of all exhibitors to date.

Recommended Dress: Business casual. Temperatures in meeting rooms and personal comforts vary greatly. As meeting rooms usually seem cold, please bring a sweater or jacket to compensate.

Registration Materials: The conference app will be available for download by registered attendees on March 27, 2020. On our app you will be able to review presentations that have been submitted, logistic information, exhibitor and sponsor listings and other pertinent information.

Disability Statement: If you have a disability, please contact the NCBC office by January 24, 2020 to notify the staff of any special needs to help us better serve you.

Consent to Use Photographic Images: Registration and attendance at, or participation in, NCoBC meetings and other activities constitutes an agreement by the registrant to NCBC's use and distribution (both now and in the future) of the registrant or attendee's image.

Evening Networking: For individuals attending the conference alone or wanting to meet peers from around the country. The Evening Networking Program has been very successful. If you are attending the conference without your coworkers, friends or significant other and would like to experience what Vegas has to offer, but not alone, this is the group to join! Julie Susi from Mercy Hospital in Portland, Maine and Ann Livingston from Novi, Michigan, will bring together conference attendees who will be attending by themselves and want to meet peers from around the country. Julie plans to organize individuals into small networking groups to enjoy Vegas in the evenings after the day-long conference. If you are attending the conference alone and would like to network with a group of fellow peers, contact Julie Susi at susij@emhs.org and let her know your arrival date and time. You will be invited to a meeting to organize and break out into groups.
