

## High-Risk Clinical: Understanding Genetics

Kim VanYsseldyk, MN, FNP-BC, AOCNP, ACGN, CGRA & Danielle Rogers, NP-C, AOCNP, ACGN, CGRA

You are invited to embark on our journey down the yellow brick road as we explore the latest advancements in High-Risk Breast Care and Cancer Genetics from risk assessment, genomics and genetics to imaging, risk reducing medications and surgical options. Additional topics will include recent updates to NAPBC Standards, legislative goals and initiatives for hereditary cancer care and modifiable breast cancer risk factors.

Bring your team and join us!
