

The Essential Oncoplastic Surgery Course™

Cary S. Kaufman, MD, FACS, Course Director;
Gustavo Zucca-Matthes, MD, FACS, Post Doc, Course Co-Director

Oncoplastic Surgery is **safe**, has **fewer re-excisions**, has **improved** cosmetic results and has been **embraced** by many breast surgery organizations here and abroad. Join us at our newly expanded three-day "Essential Oncoplastic Surgery Course™" using environmentally conscious customized Mastotrainer models to perform a variety of oncoplastic surgical procedures, from **basic to complex**.

These models provide predictable anatomic issues that can be corrected using a variety of oncoplastic techniques. One-on-one instruction will occur in a **see-one-do-one process**. Surgeons of all levels of breast surgical skills can **learn new techniques**. Those who already perform oncoplastic surgery may **consider applying** for the "Certificate of Performance in Oncoplastic Surgery™." This process will include **educational lectures**, **documented performance** of multiple surgical techniques and an oncoplastic surgery written test. For those that satisfactorily complete the evaluation, an award certificate and surgical procedure portfolio will be given that documents each procedure and all educational content.

Faculty: Gustavo Zucca-Matthes, MD, PhD; PhD, Post Doc; Jay Harness, MD, FACS; Jennifer Gass, MD, FACS; Laura Ongie MS, CGC; Ronda Henry-Tillman, MD, FACS; Jean-Claude Schwartz, MD, FACS; Beth-Ann Lesnikoski, MD, FACS; Chris Glaser, MD, FACS; Barbara Rabinowitz, PhD, MSW, FNCBC; Kimberly Corbin, MD; & Cary S. Kaufman MD, FACS, FSSO

Friday - Sunday, March 15 -17

2024 Course Outline • 20 Hours of didactic teaching • 7 Hours of hands-on lab over three days

History of Oncoplastic Surgery

The Gift of Oncoplastic Surgery

Genetic Testing: What the Breast Surgeon Needs to Know

Reconstructive Lumpectomy

Crescent Mastopexy/Benelli-Round Block Mastopexy: Methods, Candidates, Guidelines

Oncoplastic Lab #1 Using RIGHT Breast – Crescent and Round Block Techniques (Two procedures)

Nipple Sparing Mastectomy Techniques / Preferences / Options

Pre-Pectoral Tissue Expanders – Who, When, How

Oncoplastic Surgery Billing: Getting Paid for What You do

How to Approach the Inferior Breast: Inframammary Fold Approach, Anchor/Inverted T Approach: Methods, Candidates, Guidelines
