

# (CBM) Clinical Breast Management Post-Conference

## Curiouser and Curiouser! Adventures in the Wonderland of Benign Breast Disease

Nathalie Johnson, MD, FACS & Jackie White, RN, MSN, AGPCNP-BC, CGRA

Step through the looking glass and into a world where curiosity leads to confidence. This immersive, hands-on intensive course is designed for advanced practice providers and general practitioners eager to expand their expertise in the evaluation and management of benign breast disease. The clinical adventure blends evidence based-learning with interactive discussion, real-world case reviews, and hands on skill building in our Mad Hatter's Lab – a guided workshop offering practical experience in breast exams, biopsy techniques, and more.

## Monday, March 30

FOLLOWING THESE TIMES
